## **Flying Fisherman® Jr. Angler Sunglasses** Triacetate Polarized Lenses Offer Protection for Kids Eyes

*Islamorada, Florida Keys* – For 2014, Flying Fisherman® is adding a new Jr. Angler Kid's style to its Action Angler Sunglasses Collection. The **Gaffer** model will now come in an amber lens, as well as the smoke lens previously offered. Jr. Angler's look and feel just like the big guys sunglasses, with wide temples for peripheral protection and comfort-grip temple pads to keep them from slipping. They weigh just .7 oz, with 8 base/55mm lenses. Polycarbonate frames are Shiny Black with amber AcuTint lenses. MSRP is \$14.95.

The polarized lenses are made from hard coated, premium triacetate and feature the AcuTint™ Lens Color System to enhances color contrast without distorting natural color...all equaling scratch resistance, no glare or color distortion, and maximum protection against harmful UV rays – so important for young eyes.

Flying Fisherman® products along with testimonials, dealer locator and more are available for review at [www.flyingfisherman.com](http://www.flyingfisherman.com) or call for a catalog.
