Flying Fisherman® Adds Carysfort Sunglasses

Islamorada, Florida Keys – New for 2017 and debuting this fall, Flying Fisherman's **Carysfort** adds a sense of classic style to the Master Angler Sunglass Collection with a sleek combination of TR90 and nickel-silver metal frames. The large fit, square aviator frames offer anglers generous coverage from the elements, with adjustable nose pads for all-day comfort. Virtually indestructible, polycarbonate RhinoLenses™ give anglers complete eye protection from flying hooks, lures, sinkers and other debris, plus the Flying Fisherman® AcuTint™ lens coloring system for enhanced clarity and polarized, glare-blocking results on or off the water. **Carysfort** frame colors are matte gunmetal frames with matte black temples / smoke lenses, or shiny gold frames with matte tortoise temples / amber lenses. Timeless looks with premium fishing functionality. MSRP is \$89.95 and includes a microfiber, drawstring case and a one year warranty.

The Flying Fisherman® Polarized, AcuTint™ lens coloring system eliminates glare and enhances color contrast, without distorting natural colors for enhanced visual sharpness and eye comfort, adding to fishing productivity and maximizing the overall outdoors experience for anglers and water sports enthusiasts. More information on Flying Fisherman® polarized sunglasses and angler accessories, along with testimonials, dealer locator and more, are available at www.flyingfisherman.com or call 305-852-8989 for a catalog.
