FLYING FISHERMAN SUNBANDIT BANDANAS

Flying Fisherman has six new SunBandit bandana facemasks for 2016, and marine artist Jason Mathias has added his touch to four of them: Blue Marlin, Mahi Skin, Striped Marlin and Hogfish Camo are new signature series designs that capture the amazing underwater world as seen by Jason Mathias.

Two other new patterns added to Flying Fisherman's multifunctional headwear line are the American Pride Sailfish, and Sublime Paisley for gals. SunBandits are versatile seamless bandanas made of 100 percent microfiber polyester that can be worn up to twelve different ways—from a face mask, headband, balaclava, neck gaiter, and more. They are popular with anglers for protection from the sun's harmful UV rays. Twenty-four designs are available, all at an affordable \$15.95 MSRP.
