## REVIEW 2016

### FLYING FISHERMAN BAHIA

New for 2016, the Flying Fisherman Bahia's sleek lightweight frames have a medium fit wrap design that's both stylish and functional with virtually indestructible RhinoLenses for complete eye protection, not only from UV rays, but also from dangerous objects like flying lures. The AcuTint lens coloring system provides crystal clear polarized optics, making it easier to spot fish and structure.

The Flying Fisherman Polarized, AcuTint lens coloring system eliminates glare and enhances color contrast, without distorting natural colors. The enhanced visual sharpness and eye comfort adds to fishing productivity and maximizes the outdoors experience.

Bahia frame colors are Matte Black Smoke and Matte Tortoise and are Amber or Matte Black with Smoke-Blue Revo, and they include a microfiber case.
