### CARYSFORT SUNGLASSES

Flying Fisherman's Carysfort adds a touch of style to the Master Angler sunglasses collection with a sleek combination of nickel silver and TR90 frames. The large fit, square aviator offers anglers generous coverage from the elements, with adjustable nose pads for all-day comfort. Virtually indestructible, polycarbonate RhinoLenses give complete eye protection from flying hooks, lures, sinkers and so on, plus the AcuTint lens colouring system gives awesome clarity and polarised results. Carysfort frame colours are Matte Gunmetal-Black with smoke lenses and Gold-Tortoise with amber lenses.
