"FISHING IS A DISCIPLINE
IN THE EQUALITY OF MEN –
FOR ALL MEN ARE EQUAL BEFORE FISH."

HERBERT HOOVER

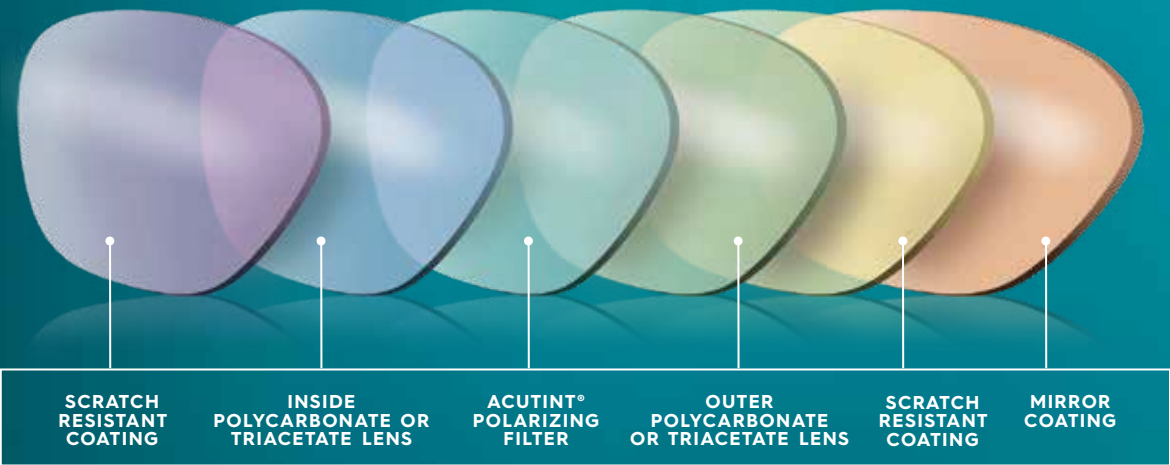

QUALITY, AFFORDABLE POLARIZED EYEWEAR

Flying Fisherman® polarized eyewear is designed by fishermen for fishermen, to offer quality, affordable eyewear for sport fishing enthusiasts and professionals. Launched in 1985 in the Florida Keys, our products are put to the test every day by some of the best sport fishing guides in the world, where the extreme sun and harsh conditions, along with a tremendous variety of game fish, provide some of the best sport fishing opportunities and field testing grounds in continental America.

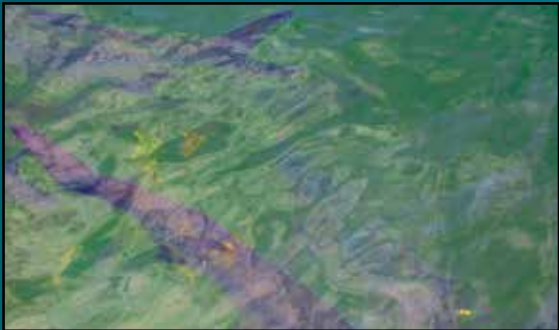

More than 50 styles and a variety of AcuTint® Sunlens options make up the collection, from classic frames to sleek wrap-around designs. They're all stylish, fully functional, and offer uncompromising performance and value.

POLARIZATION AND UV PROTECTION

Glare is caused by horizontal light waves reflected off surfaces like water, sand, snow and pavement. Flying Fisherman® AcuTint® lenses have a polarizing filter to eliminate glare, enhance depth perception and clarity, and reduce eye strain. They provide 100% UV protection up to 400 nanometers, and meet or exceed ANSI and European (CE) standards for general purpose eyewear.

WITHOUT FLYING FISHERMAN® SUNGLASSES

WITH FLYING FISHERMAN® SUNGLASSES

LENS COLOR

	Smoke - Gray tint best for bright, sunny conditions like fishing deep water, lakes and offshore. The most natural lens color that doesn't distort colors.		Green Mirror - Amber lens with a multi-layered, green mirror coating that reflects glare away from the eyes. Works well in either bright sun or low light.
	Amber - Brown tint that adds contrast. Excellent for shallow water fishing, bright sun and overcast conditions. Enhances visual definition.		Blue Mirror - Smoke lens with a multi-layered, blue mirror coating that adds a stylish look and extra glare reflection. Best for bright sunny conditions.
	Yellow-Amber - Great for extremely flat or low light conditions like early morning or evening. Sharpens visual definition and increases contrast.		Red/Gold Mirror - Amber lens with a multi-layered, red or gold mirror coating that adds extra glare reflection. Excellent for low light conditions.
	Vermillion/Copper - A high-contrast lens tint favored for sight fishing, muddy water and low light conditions. Maximum sharpness and color definition.		Silver Flash Mirror - Smoke or copper lens with a multi-layered, silver mirror coating that adds extra glare reflection. Smoke/silver is excellent for bright sun, copper/silver adds contrast in low light conditions.

ACUTINT™ SUNLENSES

The color of the sunlens is critical to the ability of our sunglasses to perform in various conditions. Flying Fisherman®s AcuTint® lens system enhances color contrast, without distorting natural colors. Two durable lens options are available in either polycarbonate RhinoLens™ or Triacetate (TAC), each with their own benefits.

SUNGLASS FEATURES	MASTER ANGLER RHINOLENS™	ACTION ANGLER TRIACETATE
POLARIZATION Eliminates glare that can cause eye strain and fatigue.	100%	100%
UV PROTECTION from harmful UVA and UVB rays up to 400 nanometers.	100%	100%
ACUTINT™ LENS Coloring System enhances color contrast without distorting natural color, allowing you to see beneath the water's surface to spot fish and other objects.	Yes	Yes
OPTICAL CLARITY All Flying Fisherman® eyewear meets ANSI, FDA and CE optical standards. Polycarbonate RhinoLens™ offers more clarity than TAC.	Better - Optically Correct	Good - Optically Clear
SHATTER RESISTANCE Triacetate lenses offer high shatter resistance. Polycarbonate lenses are shatterproof, offering the best protection from flying lures and hooks.	Unbreakable	High
SCRATCH RESISTANCE TAC and Polycarbonate lenses are hard coated to resist scratching.	Best	Good
FRAME DURABILITY Most Master Angler Styles feature TR90 Grilamid frames for increased durability.	Best	Good
ACCESSORIES included.	Microfiber Case	
WARRANTY Covers against any manufacturer's defects. Normal wear and tear excluded.	1 Year	1 Year

SUNBANDIT® PROTECTIVE FACE MASK

Over 12 different ways to wear | 100% Microfiber polyester | Lightweight at just 1.2 ozs. | Soft and seamless
Breathable and wind resistant | Moisture wicking and quick to dry | Stretches horizontally only for comfortable wear | One size fits most

Most often worn as a face mask for protection from the sun, wind and harmful UV rays, it can also be worn as a headband, cap, neckerchief, balaclava, hair tie and more. Made of seamless microfiber polyester, it's extremely lightweight and breathable, wicks away moisture, and dries quickly. Don't leave port without one!

SUN PROTECTION

UPF 50+ sun protection keeps harmful UV rays at bay. Dark colors offer the most protection.

MOISTURE WICKING

Pulls water and sweat away from your skin to evaporate quickly, leaving you dry and cool.

ANTIMICROBIAL

Eliminates the growth of odor-causing bacteria and resists stains, so you feel fresher longer.
