01 FLYING FISHERMAN *Breeze Sunglasses*

As light as the wind, the new Breeze sunglasses are mid-sized, unisex models that perform as good as they look. Made from injection-moulded nylon, the stylish wrap frames have wider temples for generous sun protection, vented nose pads and co-injected temple pads for a snug fit. The polarising lenses are 8 base curve, 59mm x 35mm and made from hard-coated triacetate with Flying Fisherman's AcuTint Lens Colour System to enhance contrast without distorting natural colours. They're scratch resistant, eliminate glare and provide 100 per cent protection from harmful UV rays.

02 MUSTAD *Pliers*

THESE new, durable and functional pliers from top hook company Mustad make a great accessory for any tackle store. Constructed in stainless steel, the pliers are then coated with black titanium nitride for increased corrosion resistance. They feature textured jaws for a more secure hold, a built-in crimper function, split-ring tool, lure-tuner grooves and a mono/wire cutter. They also feature durable, soft-grips handles for comfort and a nylon sheath with Velcro closure and belt loop.

03 PLASTICA PANARO *M2300 Fly Caddy Station*

Billed by plastic-moulding expert Plastica Panaro as the ultimate fly caddy station, the M2300 is built from a heavy-duty and waterproof housing. Within this lies a micro-slit, high-density EVA foam that allows numerous flies and fly-tying materials and equipment to be stored. It also features a spacious compartment in the base to securely store all your materials.
